

Privacy Policy

The website (“Site”) for Blockchain Property Gate Inc. (“Blockchain Property Gate,” “We,” “Our,” “Us,” or “Company”) has been developed to offer a technological platform for users to independently examine and invest in private placement real estate offerings (the “Services”).

Privacy Policy

Your privacy as a visitor (“you,” “your,” or “user”) to our Site is of utmost importance to us. We have created this Privacy Policy to safeguard your personal data, which outlines our data collection and usage practices. It details the nature of the information we gather, how we utilize it, and your choices regarding how your information is collected and used. Our Policy also delineates how we handle personal or personally identifiable information requests. By navigating and using Blockchain Property Gate’s Site and/or Services and providing information to us, you consent to our Privacy Policy’s terms.

For queries or concerns about this policy, please contact us at info@blockchain-property-gate.com.

Updates to the Privacy Policy

Should we modify this policy, an updated Privacy Policy will be posted on our Website, and the “Updated” date will be adjusted. If the new Privacy Policy entails a significant change in our personal information collection or usage practices, you will be notified via email or a notice will be placed on the Website’s main page.

We urge you to periodically review this page to stay informed about changes to the Privacy Policy. By continuing to use the Services after such changes, you consent to collecting and using your information as outlined in the prevailing Privacy Policy.

Information Collection

In providing our Services, we are required to gather specific personal and financial details. Blockchain Property Gate exercises reasonable efforts to protect the confidentiality and security of our clients’ personal data.

While you may choose to share additional information during subsequent visits, it’s essential to note that certain data is obligatory if you wish to utilize the Services.

We generally collect information like:

- Personal and contact details.
- Profile credentials.
- Demographic data.
- Government-issued IDs.
- Investment preferences and experience.
- Financial details.
- Feedback and interactions.
- Transaction records.
- Other data you willingly provide.
- Additionally, when visiting our Site, we log each access, collecting details like:

Device specifications:

- Operating system.
- Access location.
- Internet service provider.
- Accessed data and timestamp.
- IP address.

At Blockchain Property Gate, our top priority is safeguarding client data and using it as our Users intend. We commit to:

Limiting data collection and use.

- Restricting data access to necessary personnel.
- Educating our team about privacy importance.
- Employing robust security standards.
- Promptly addressing inaccurate information concerns.

We may collect your names and email addresses when you contact Blockchain Property Gate via the Site. This information is solely for addressing inquiries, and we don't store it unless specifically requested.

Identity verification data, including name, contact details, and biometric information, is securely managed by our third-party specialist. Blockchain Property Gate retains only the ID and process status, ensuring no storage or misuse of the personally identifiable information (PII) shared during the verification.

How and Why We Collect Data

Upon account registration or subsequently, we accumulate specific personal details to initiate an account, conduct operations, interact with you, authenticate your identity, and adhere to legal and regulatory mandates. This data forms your “Profile.” Occasionally, we might solicit extra details (e.g., via surveys) to understand your needs and preferences better.

By supplying this information, whether during registration or later, you grant Blockchain Property Gate the authority to utilize and store it in line with this Privacy Policy. We might also derive your personal details from your interactions with us, other Users via the Services, or from third parties like credit reporting entities. If we merge data from other sources with personal details you directly provide us within or in relation to the Services, the integrated data will be treated as personal information in line with this Privacy Policy.

Cookies and Web Tools

Upon accessing our Website, irrespective of whether you have an account, we may dispatch one or multiple cookies.

- “Cookies” are small text files containing alphanumeric strings possibly placed on your internet browser. Cookies facilitate easier Website navigation by, among other functions, “remembering” your identity, eliminating the need to re-enter your password multiple times during Website navigation or when accessing the Services. This cookie used for validation (confirming your identity) is vital for site security. You can configure your browser to notify you upon receiving cookies or to reject them.
- A “web beacon” is typically a clear graphic (usually sized 1 pixel x 1 pixel) positioned on a site or in an email, enabling the website to record users opening the page containing the beacon.
- “Server logs” can be single or multiple log files automatically generated and maintained by a server detailing server activity, possibly encompassing any transaction executed with the server.

Kindly note that rejecting cookies might reduce site functionality or slow down response times. Refusing our authentication-related cookies could prevent you from accessing the Website.

We, or our service providers, may also track your online behavior related to the Services (e.g., pages accessed, access frequency, and your product/service preferences). Tools like cookies, web beacons, or page tags might facilitate this. Such data may include your IP address, browser type, ISP, pages visited, click stream data, operating system, and Website visit timings. This data aids administrative tasks, evaluating online product/service usage, value, performance, and enhancing your Service experience.

Data Sharing

We might allow you to disseminate specific information to other service users. You can share your profile with all Users or only those you select. Sharing your profile or other information with other Users isn't mandatory. If you share your profile, your selected recipients will be privy to the companies you track and invest in.

If you express interest in an investment via the Services, like showing interest in buying equity or loaning to a particular private real estate firm, we'll inform the investment offering party (the "Issuer") and might notify other Users you've opted to share information with. By showing investment interest and/or sharing your Profile, you consent to this information disclosure. Additionally, we might locally store information, potentially including Non-Personally Identifiable Information or Personally Identifiable Information, on your computer or device using tools like browser web storage or application data caches.

Social Media Services

You can access our Website via social media services like Google or Facebook. These services validate your identity and offer the choice to share personal details such as your name and email, streamlining our sign-up form.

Our Website might also incorporate social sharing tools for prevalent social networks. These interactive features may record your IP address and the page visited on our site, possibly placing a cookie to ensure proper functionality. Such features could be hosted by third parties or directly on our site. Interactions with these features are governed by the respective company's privacy policy.

Notifications and Interactions

Blockchain Property Gate will occasionally send you email alerts. Some are essential for your transactions on our platform, confirming specific actions. Other notifications are

legally or security-mandated. As an example, for your protection, we send notifications, ensuring no one can alter your account without your knowledge.

When registering as an investor, you'll receive confirmation emails and updates regarding investment opportunities, progress on funding, and the status of investments made through the site. Opting into our SMS Communications means you consent to receive automated text messages, possibly incurring data charges from your mobile provider.

We might also send surveys, feedback requests, or marketing offers. Participation is purely voluntary.

Always ensure our emails originate from "https://www.blockchain-property-gate.com." for security reasons, and never provide login details via email links.

Opt-out Policy

We might occasionally send marketing or promotional emails. If you'd prefer not to receive these, you can unsubscribe anytime, with up to 24 hours for processing. Some transactional emails cannot be opted out of.

Security Alerts

In case of a security breach, we might notify you electronically, suggesting protective measures. We may also announce such breaches on the Website. Depending on your residence, you might have legal rights to receive a written security breach notification.

Reviewing and Correcting Your Data

It's crucial to regularly check your information for accuracy. For any doubts or queries regarding this Privacy Policy, contact us at info@blockchain-property-gate.com.

External Links

Following links that navigate away from our site means our privacy policy no longer governs your activities. We don't manage the privacy practices of third parties.

Global Users

If you're accessing our services from outside the U.S., like the EU, be aware that you're transferring personal data to the U.S. By using our services, you consent to this data transfer.

Child Privacy

Our Website isn't designed for children, especially those below 18. We don't knowingly collect data from children under 18. If you think a minor has disclosed data to us, please contact info@blockchain-property-gate.com.

Contact Details

For any questions or concerns about our Privacy Policy, data handling, or choices regarding your personal data's collection and use, contact us at info@blockchain-property-gate.com.

EU citizens, for inquiries related to data retention or the General Data Protection Regulation (GDPR), please reach out to info@blockchain-property-gate.com.
